LIGHTS

Minimum two ambients.

The piano will be always provided by the promoter. Double bass, drum set and Hammond organ will be provided by the promoter depending on the contract.

For technical amplification requirements see next page.

SYSTEM REQUERIMENTS:

PROFESSIONAL, STEREO, PROCESSED, 3 OR 4 WAY SYSTEM:

Sound balance for audience must be proportional to hall capacity, calculating a MINIMUM of 8W R.M.S. per audience member for indoor venues, with corresponding crossover/processor to make frequency changes as convenient. For outdoor venues a MINIMUM of 7W R.M.S. per audience member is required. Suggested systems by the artists, in order of preference are: MEYER, MARTIN or L ACÚSTICS

Set up.

Subs must be Dual 18" Minimum of 4.

System set up should be well balanced with one sub per mid/hi cabinet. (Mains)

Stereo Mains and any additional fill needed to cover the entire audience area, including Front fill, Delays, etc.

Mains, Subs, Fills and Delays must have separate EQ and Time Alignment capabilities.

It is preferable to have the system run off the Matrix. (Left, Right, Sub, Fill, Delay, etc.) Please do not run the subs off an Aux.

The PA should be flown wherever possible with subs on the floor (not on the Stage.)

Channels and mixes (FOH and Monitors) should be shared as little as possible or not at all. If shared, settings including Trim, EQ, Mix assignment, insert/dynamics settings, and routing may not be changed from rehearsal set up.

Mixing Desk 32/40 channel, 8 group, 8 aux, 8 matrixes including VCA's and mute groups MIDAS EDITAGE XL3 or XL4 ; YAMAHA PM 4000 or PM 3000 or SOUNDCRAFT.
